Tours That are Hosted, Not Herded

30 years ago at the birth of Ciao! Travel we understood that whether well-traveled or brand-new traveler, Jazz, Rock and Blues *Music Travelers are different.*

Enjoying music deeply means using both the spatial and linear spheres of your brain along with your heart to approach the experience.

Jazz Europe guests don't want standardized, boxed-in, boring tours, but creative, fun explorations of Festivals, cities and countries. Ciao! Travel's Jazz Europe packages offer that in our definitive "Hosted not Herded" style.

It is a rare opportunity to be able to celebrate one's passions; Music, Travel and Culture in work. As we begin our 31st year of Jazz Europe tours we thank you, Ciao! Travel guests, friends and family for supporting us in helping to share the wonders and pleasures of growth through music, travel and self-discovery with so many great music folk.
